Installation Instructions

RMR ENCLOSURE DOOR STOP KIT

Assembly Sequence – Door Bracket on Frame

1. Drill holes on the enclosure frame and door in locations shown.
2. Attach door bracket, with 10-32 screws and sealing washers on outside of door and flange facing top of door.

Assembly Sequence – Door Mounting Bracket

1. Attach clip nuts to hole and slot on upper flange of mounting bracket.
2. Attach mounting bracket to frame, with 10-32 screws and sealing washers on the outside of the door.

Assembly Sequence – Final Assembly

1. Connect the door Mounting Bracket and door bracket by attaching the stop arm to each part with 1/4" carriage bolts, using a hex nut on the door bracket and the wing knob on the mounting bracket. Install stop washer with rubber gripping surface as shown, with rubber face against mounting bracket.
2. (Optional) Install remaining M6 carriage bolt, hex nut and steel washer in Mounting Bracket channel at desired location to act as a stop.
