

Product Cut Sheet

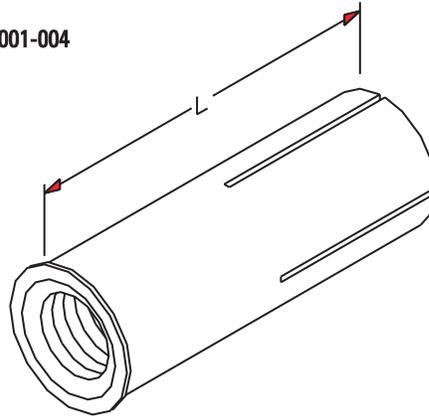

ANCHORS

Use to secure threaded rods or stud bolts in concrete or masonry. The 20067-001 is used with 3/8-16 threaded rods, and the new 06001-004 5/8-11 anchor is for use with 5/8-11 threaded rods and studs. To install the 06001-004 anchor, use the specially designed anchor setting tool (P/N 06003-001). Installation instructions included. Sold individually.

20067-001

06001-004
